

Mobile & Tablet Payment Solutions

Take your business anywhere you go.

Whether you want to take payments at your customer's place, tableside or you're just generally on-the-go, the mobile pin-pad + Mobile Pay Plus application is the payment solution for you.

The high-powered mobile payment solution puts everything you need to grow and manage your business in the palm of your hand alongside your Apple® or Android™ devices.

It's simple to **GET STARTED** once you receive the iCMP payment terminal.

1. **DOWNLOAD** the Mobile Pay Plus application from the Apple App store for your Apple iPod Touch, iPhone, iPad, or from Google Play onto your Android phone or tablet.
2. **PAIR** the iCMP payment terminal with your Apple or Android device.
3. **ADD** your inventory.
4. **START** accepting payments.

Benefits for Business

✓ **Be in your customer's environment.**

Be flexible for your customers and allow them to pay for your goods or services in any form, at their location whenever payment is required.

✓ **Easily manage your inventory.**

Once an item is sold, you can take payments immediately and your inventory updates, no matter how many devices you have or where they are being used.

✓ **Protect your business.**

Help keep yours and your customer's information safe with built-in data protection from TransArmor.

✓ **Apply discounts.**

Apply discounts for your customers at the item level, order level or both.

✓ **Access anywhere, anytime.**

Run your business on cloud-based software so you can access your information from any device. And, easily keep track of your business transaction by type (cash, cheque, credit/debit) using Business Track Reporting.

✓ **Accept more payment types.**

Take virtually all kinds of payments — anytime, anywhere.

Your partners at First Data Canada can help you take payments anywhere.
